Debugging Reactive Code

- Debugging reactive code within a *working* Shiny application is **not a trivial task**

- To know the reactive state:

- Value

- Dependencies / Invalidations

- … Over time!!

Solution:
reactlog!!

Debugging Reactive Code

- Debugging reactive code within a *working* Shiny application is **not a trivial task**

- To know the reactive state:

  - Value

  - Dependencies / Invalidations

  - … Over time!!

Solution:
`reactlog`**!!**

What is `reactlog`?
